The Prez Sez . . .

January 2011

Well, it is a new year. I'm sure it will be another good year for the Club and the Corvair hobby. Thank you all for your vote this year allowing myself and your other officers a chance to represent you again this year. Speaking for Spencer, Mike, Ralph and myself, we all say thanks – you're stuck with us for at least another year.

Well, we are in print again. The February edition of Hemmings Classic Car has an article on the late model sprint owned and restored by the Corvair Preservation Foundation. In addition to that, we are mentioned again in the January edition on page 32 within an Oldsmobile Toronado article: "And so the Oldsmobile eventually chose a safer, more conservative route for what was possibly the most radical new GM car since the Corvair, easing its styling bit by bit toward the formal" (note: this again supports my 1960's high water theory – see last Prez Sez). Yes, I may be a little obsessed with reading too much car material. I'm not alone am I??? Please say no!

We have a busy first quarter. In January, we have a fieldtrip to Spurlock Power Station set for Saturday the 15th. (I'm thinking if we could arrive at the plant around 10:00am, that would work fine.) We have our Swap Meet Saturday, February 5th – get your stuff ready to sell!!! In March, the Corvair Performance Workshop is help in Indy the 18th & 19th. Many of our Club members make the trip. It is always a neat time.

One thing that was mentioned and agreed to at the Christmas party was that we could skip the January monthly meeting on the 14th since we had the trip to Spurlock on the 15th. Afterwards, we remembered we had promised to the Club in the Negative Camber that we would have pizza and videos. After consulting with the other officers, the consensus was to stay the course and have the monthly meeting also. This will give us a chance to formalize how we will be making the fieldtrip and where we will meet. So – pizza party it is – bring your appetite and videos if you have some!

See you at the next meeting . . . Vairs Rule!!!

A handwritten signature in black ink, appearing to be "A" or "V", located at the end of the text.

**SPURLOCK STATION
FIELDTRIP**
January 15, 2011
10:00 AM to ???

The Club is planning a fieldtrip to Spurlock Power Station in Maysville, KY. This station is a four unit 1500MW coal fired power plant. It is a great way to see how electricity is produced. The plan is to meet somewhere in the Cincinnati area and carpool to the plant (about an hour down the AA from the Big Mac bridge). Details will be finalized at the January meeting. If you want to attend, contact any of the officers so we can build a head count.

Long pants and covered shoes (no open shoes or tennis shoes) are required for safety reasons. Hard hats, safety glasses and hearing protection will be provided at the plant.

If you don't want to carpool and prefer to drive on your own, that's fine. Directions are below. We plan to be at the plant around 10:00am. If you plan to drive separately, let me know by phone or email. I need to give the plant guards your names so you can get in the plant.

See you there, Joe

The plant address is:

**1301 West Second Street (also Rt. 8)
Maysville, KY**

Directions:

Take the AA from Cincy towards Maysville (most of the trip). Once you approach the Maysville area, turn left at route 62/68 (a light – you will be heading towards Ohio). Just before the bridge back into Ohio, take the route 8 exit to the right. At the end of the off-ramp, turn left towards Augusta. The plant is a mile or so down on the right, just past the Temple Inland paperboard plant.

Sorry, but the 2010 CCC Christmas Party pictures did not turn out. If anyone else took pics that did turn out, please email them to corvairdoug@aol.com to put in the next Camber.

Thanks, Doug

FVair Trade

I have a complete used FC front steering “Boomerang” with arm/links, etc. Used good condition for sale -- \$30 (no shipping) -- picked up in Milford. Also, FC axles with bearings -- \$30 each (no shipping). Two late model trailer hitches (2 styles) -- \$25 each, also to be picked up here. Call Larry, 513-575-0346.

Have come across 2 Corvairs and was writing to see if anyone in your club would be interested; both are 2 doors; can send photos. Contact Joe, 216-482-6019:

The first has a rolling chassis; complete interior; all chrome present. It is missing the glass, engine, transmission & rear bumper. The original factory color is turquoise with black interior. The vehicle is rust-free with some dents and dings and would be perfect for restoration.

The second is missing the seats and interior components, as well as the rear glass. It has a complete body, rolling chassis. Missing front bumper; has rear bumper. Factory color white with red interior.

*Happy Birthday & Happy
Anniversary to All Celebrating During
the Month of January!*
